## SUBMISSION UNDER 37 CFR 1.114

In response to the Office Action mailed June 18, 2003, which Office Action was made final, and for which a three months' extension of time is requested and the fee authorized in the accompanying Request for Continued Examination, please enter the following amendment and consider the following remarks.

## AMENDMENT

In the Specification:

Amend the paragraph of the specification at page 3, lines 21-29 to read as follows:

In particular, compounds of Formulas I-VII are useful for the treatment of metabolic diseases induced by treatment with an HIV protease inhibitor, and for the treatment of HIV protease inhibitor-induced insulin resistance, hyperglycemia, diabetes, ketoacidosis, lipodystrophy and hypertriglyceridemia in humans. The methods of the invention also

include the co-administration of insulin in conjunction with the administration of receptor-activating compounds for such treatment. Compounds of Formula I-IV are also disclosed as being useful in treating diabetes in US Patent Applications Nos. 09/872,763 (now US Patent No. 6,479,548) (and Provisional Application No. 60/208,591), 09/949,165 (now US Patent No. 6,600,069) (and Provisional Application No. 60/230,738), and 09/579,279 (now US Patent No. 6,458,998), and PCT/US00/14644, incorporated herein by reference.

**In the Claims:**

Cancel all present claims (which are claims 1-20).

Add new claims 21-36 as noted on the following pages.
